TABLE I

Area, Houses and Population.

THIS table shows for each district the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female. Similar figures are given for the Feudatory States.

The difference between some of the areas here shown and those in the corresponding table of 1901 is due to inter-district transfers, as explained on the title-page of Table II.

For the purpose of column 3 (number of towns) Cantonments have been treated as forming part of the Municipalities which they adjoin.

The main statistics for Tahsils will be found in Provincial Tables I and II at the end of the Volume.

TABLE II.

Variation in Population since 1872.

This table compares the population as now ascertained with that of the four previous Censuses. The figures for the latter differ from those shown in the old Census reports. This is due to subsequent transfers of territory from one Province to another, and also from one District to another. The effect of these changes on the population of the Districts concerned has been calculated, and the figures have been adjusted accordingly.

The following are the Districts of which transfers of territory have taken place:—

Between 1872 and 1881—

Seoni, Balaghat, Betul, Hoshangabad, Chanda, Chhindwara.

Between 1881 and 1891—

Mandla, Balaghat, Seoni.

Between 1891 and 1901—

Nagpur, Seoni, Chhindwara, Hoshangabad, Nimar, Betul, Mandla, Balaghat.

Between 1901 and 1911—

Saugor, Narsinghpur, Mandla, Balaghat, Hoshangabad, Nimar, Betul, Chhindwara, Chanda, Drug, Raipur, Bilaspur, Amraoti, Akola, Buldana, Yeotmal.

The total population of the Province lost 27,695 persons by the transfer of the Talukas of Bhadrachalam and Rakapalli to the Madras Presidency between 1872 and 1881.

On the other hand, it received a nett addition of 1,729,563 persons between 1901 and 1911 by changes which added Berar and the Chota Nagpur States (Chang Bhakar, Korea, Surguja, Udaipur and Jashpur) to the Province and transferred almost the whole of the Sambalpur District and the Oriya States (Bamra, Rairakhol, Sonpur, Patna and Kalahandi) to Bengal and a portion of Chanda to Madras.

The first census of Berar was taken in 1867. The figures given under 1872 in this and subsequent statements are those of the 1867 census.

TABLE IV.

Population of towns with variation since 1872.

The population of Cantonments has been added to that of the Municipalities or Towns which they adjoin. The Cantonment population is shown below separately:—

Cantonment.	Muncipality or Town with which included.	1911.			1901.		
		Persons.	Males.	Females.	Persons.	Males.	Females.
Jubbulpore ...	Jubbulpore ...	21,642	14,252	7,390	13,157	7,780	5,377
Saugor ...	Saugor ...	11,032	6,510	4,522	10,918	6,388	4,530

Pachmarhi ...	Pachmarhi ...	3,287	1,842	1,445	Not available.		

The urban population was much affected by the prevalence of plague at the time of census. A recensus of 12 principal towns shows an increase of 82,650 persons (males 41,945, females 40,705) in the urban population. Detailed figures of the recensus are given in the Report Volume. The town population for previous years has been adjusted as far as possible.

TABLE VII.

Age, Sex and Civil Condition.

THIS table is divided into three parts. Part A (pp. 36 to 39) shows the distribution, for the Province as a whole of the total population and of each religion by age, sex and civil condition. Part B (pp. 40 to 50) shows the distribution in Districts and States of the total population and of the main religions by age, sex and civil condition; but in this Part, in order to economise space, the age statistics have been given in less detail than in the Provincial Summary. Part C (p. 51) gives similar details for Cities.

TABLE VIII.

Education by Religion and Age.

This table, like Table VII, is divided into three parts. Part A (pp. 54 and 55) shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned. Part B (pp. 56 to 65) gives details for districts for the total district population and for each main religion, and Part C (p. 66) gives similar details for cities.

Columns 6, 7, 8 of the table show the number of persons literate in their vernacular. The number of persons literate in English has also been shown. Some of these have returned English as their only language, while others are also literate in a vernacular, and have accordingly been entered twice—once in the column referring to the vernacular, and again in the columns "Literate in English." The latter columns must, therefore, be left out of account in calculating the total number of literate persons.

The following statement distributes the total number of literate Christians in the Provinces in each category between Europeans and Anglo-Indians on the one side and Indian Christians on the other side :—

TABLE IX.

Education by Selected Castes, Tribes or Races.

This table repeats the information given in Table VIII in respect of education with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover in Table VIII the whole population is dealt with, while this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space figures have been given not for each district separately but for groups of districts the local conditions of which may be presumed to be fairly uniform. These groups as a rule correspond to the Natural Divisions whose constitution is explained in Chapter I of the Report Volume. Thus the Divisions for purposes of this table are as follows:—

Nerbudda Valley.—Saugor, Damoh, Jubbulpore, Narsinghpur, Hoshangabad and Nimar.

Maratha Division.—Nagpur, Wardha, Bhandara, Chanda and the Berar Districts.

Plateau Division.—Mandla, Seoni, Betul, Chhindwara and Balaghat.

Chhattisgarh Division.—Raipur, Bilaspur and Drug.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification.

TABLE X.

Language.

In this table, the languages and dialects have been arranged according to their family affinity. The principal vernaculars of the Province are:—

Hindi	...	...	...	Columns	5—7
Marathi	...	...	...	„	20—22
Gondi	...	...	...	„	44—46

the other minor vernaculars being Oriya (cols. 26—28), Oraon (cols. 50—52), Telugu (cols. 59—61), Kolami (cols. 62—64), Kherwari (cols. 68—70), Korku (cols. 83—85), Kharia (cols. 89—91), and Gadaba (cols. 92—94).

Dialects were not asked for in the instructions to enumerators and the figures for dialects cannot, therefore, be taken as accurate. A better estimate of the distribution of dialects will be found in the subsidiary tables appended to Chapter IX (Language) in Part I of the report.

The dialect Marwari properly belongs to the group Rajasthani which Dr. Grierson holds to be linguistically distinct from Hindi. The two other dialects of that group in these Provinces, *viz.*, Nimari and Malwi have been returned by the enumerators as Hindi, and as it is not therefore possible to make a complete group of the Rajasthani languages Marwari has also been included in the figures of Hindi. The matter is elaborately dealt with in the Chapter on language in the Report Volume.

TABLE XIII.

Caste, Tribe, Race or Nationality.

THIS table shows caste and the religion to which a caste belongs. In cases where large numbers of the caste profess various religions, separate figures have been given for each. Where figures for other religions than the main religions were very small, they have been added to those for the main religion and the number so added has been noted in the column of remarks.

As a rule, persons converted from Hinduism or Muhammadanism to Christianity were returned as 'Indian Christians' and their caste of origin was not mentioned in the census schedules. In the case of the aboriginal Oraons of the Jashpur State, however, the name of the tribe was frequently given and the number so returned has been noted in the remarks column.

Sub-divisions of castes were returned in the case of Banias and Rajputs only and have been duly entered. As far as possible groups that are not true castes have been added to the castes to which they appeared to belong after such enquiries, local or otherwise, as it was possible to make. Castes with small numbers have been massed together under 'Minor Castes' in columns 680 and 681, and their details have been given in an appendix. The unclassed castes have been similarly dealt with in columns 682 and 683.

The four principal races of Musalmans, so far as they were returned, have been entered in columns 684 to 691, other Musalmans who did not return their race being put in columns 693 and 694. The remaining population belonging to casteless religions has been entered in columns 695 to 702, the nationality of Christians being omitted as it will be found in Table XVII.

The Divisions mentioned in the remarks column and in the appendices are the administrative Divisions of this Province..

TABLE XIV.

Civil condition by age for selected castes.

This table, like Table IX, deals not with the whole population but with certain selected castes in certain districts, or parts of districts, where they are specially numerous.

The figures in this table against 8 castes, *viz.*, Ahir, Bahna, Gond, Kawar, Kharwar, Kol, Oraon and Sawara do not agree with those in Table IX, as in this table figures for persons belonging to certain selected religions only have been included, while in Table IX figures for all religions have been taken.

TABLE XVI.—Occupation by Selected Castes, Tribes or Races.

This table shows the occupations of 101 principal castes. At the end an appendix gives the principal occupations of minor industrial castes.

It may be explained that the total strength of a caste in this Table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification.

TABLE XVI.—Occupation by

Caste, tribe or race.	Traditional occupation.	Population dealt with.				Number of actual workers whose traditional caste occupation was returned as their				Number of actual workers returning their traditional occupation as their principal means of livelihood who had some subsidiary occupation.	
		Actual workers.		Dependants.		Principal means of livelihood.		Subsidiary means of livelihood.

PROVINCIAL TABLE I.

Area and Population of Tahsils, Cities and large Towns.

In this Table the area and population of the Tahsils of the Central Provinces, the Taluks of Berar and of two cities, and ten large towns are shown. The figures for Zamindaris are given separately under the Tahsil to which they belong. The figures of the cities and towns are shown above the Tahsil to which they belong and are not included in the Tahsil figures.

PROVINCIAL TABLE II.

Population of Tahsils, Cities and large Towns by Religion and Education.

In this Table the population of the Tahsils of the Central Provinces and the Taluks of Berar and of two cities and ten large towns is shown by the four principal religions. The figures for zamindari areas are given separately under the Tahsils to which they belong. The figures of the cities and towns are shown above the Tahsil to which they belong and are not included in the Tahsil figures. Literacy is shown for the same areas for certain main age periods, but the Tahsil figures include only Hindu, Animist and Muhammadan literates as literacy for the Christian and minor religions was not sorted for smaller units than the District.
